You can now access the *Journal of Endodontics* online through the AAE Web site at www.aae.org. The site features:

**Online Table of Contents**
This link will take you to the table of contents for the most current issue of the *JOE*. Interested in what's coming in the next issue? This site will have it first.

**Instructions for Authors**
Review an electronic version of the *JOE* instructions to authors.

**Guidelines for Publishing Papers in the JOE**
These guidelines provide a detailed and practical review of tips for preparing and editing manuscripts, figures and tables for publication.

**Scientific Advisory Board**
The editors have greatly expanded the Scientific Advisory Board to facilitate an electronic peer review of all manuscripts submitted to the *JOE*. We thank these colleagues who generously share their expertise. We will post the names of Scientific Advisory Board members throughout the year on the Web site and publish them annually in the December issue of the *JOE*.

**EndNote Library**
The editors of the *JOE* are pleased to provide this free downloadable library of the titles and abstracts of papers published in the *JOE* since 1975. The software program permits searching by author, year or keyword, and EndNote™ is also helpful in both designing research studies and in writing manuscripts. Moreover, the EndNote™ program automatically formats references into the correct style for the *JOE* (to do this, select “Styles” from the menu, open the “Medicine” folder and click on “Vancouver” to run the correct reference style). The editors will update this *JOE* library periodically throughout the year. Users must purchase the EndNote™ software program to use this feature (see www.endnote.com for more information).

**Annual subscription rates for *Journal of Endodontics*:** $333.00 for individuals and $384.00 for institutions. AAE members—annual dues include $45 for *JOE* subscription. Call (800) 654-2452 to subscribe. Prices are subject to change. Indexed by Current Contents (Clinical Medicine, Science Citation Index, SciSearch, Research Alert [personalized search service], ISI/BioMed [online database], Biomedical Engineering Citation Index), and Index to Dental Literature/Medline.
